

GREAT BRITAIN WOULD CANCEL ALL ALLIED DEBT

Murder Suspect Fights Duel To Death With 2 Detectives

CASTOR KILLED IN PISTOL DUEL IN COAST CITY

Sister-in-Law and Detective Bailey Also Die as Bandit Puts Up Fight

ANOTHER OFFICER WOUNDED

Castor Was Wanted in Connection With Death of Wife of Henry Wilkens

SAN FRANCISCO, Aug. 3.—Walter Castor, murder suspect being sought by the police, and his sister-in-law, Mrs. Robert Castor, and Police Detective Jim Bailey were shot and killed and Detective Ernest Gable seriously wounded in a pistol fight at the Castor home here, according to police reports. A police detail went to the home, following a tip that he had returned there after being sought since early in May. The shooting followed.

Castor was being sought in connection with the shooting and killing of Mrs. Henry Wilkens, wife of Henry Wilkens. Wilkens is in custody on the charge of murder in connection with his wife's murder. Castor, who had been trailed from his sister-in-law's home to that of his mother, a widow of a San Francisco policeman, was in bed when the police arrived, according to a report of Detective Sergeant Dinan. The three police went to the rear of the home. Dinan, Bailey and Mrs. Robert Castor went to the front door and rang the bell and were admitted by the fugitive's mother, according to the police report.

Dinan saw Castor in the rear bedroom reaching for a pistol. It is alleged. The officer drew his pistol as Castor rushed from the room and fired. Bailey, a veteran of the force, received the bullet in his heart and attempted to stagger out of the front door but fell dead on the threshold. Castor rushed to the rear in an attempt to escape, but was met by Gable and the officers there. Castor shot Gable in the eye, then rushed back into the house and opened fire on Mrs. Robert Castor. He then shot and killed himself.

SECURE LEASE ON SILVER HILLS MINE

William Maupin, who has been leasing at Klondyke for the last two years with good success, has been granted a two-year lease on the Silver Hills property in Tule canyon, and has moved over supplies and effects. Mr. Maupin is a thorough miner and will inaugurate a campaign of development with a view of starting shipments at as early a date as possible.

The Silver Hills has been credited with having produced a large amount of high grade ore, and it is said that there is exposed a large amount of medium grade ore that can be handled at a good margin of profit.

BABY GIRL BORN

The home of Gus B. Wilson, blacksmith foreman at the Victor shaft, was blessed on Wednesday by the arrival of a 10-pound baby girl. Mother and infant getting along nicely, with hopes held out for the recovery of the father.

IONIA AUTONOMY IS PRACTICALLY GIVEN

CONSTANTINOPLE, Aug. 3.—Sublime Pasha has presented to the allied representatives here a formal protest against the Greek proclamation of autonomy for Ionia. The movement of Greek troops in Asia Minor to Rodosto, in Thrace, continues. The local opinion is the Greek concentration is merely an effort to assist the powers in forcing the Turkish nationalist government at Ankara to agree to peace terms.

OPPOSERS OF KU KLUX KLAN VICTORIOUS

Mayor of Oklahoma City Given Big Majority in Democratic Primary Contest

OKLAHOMA CITY, Aug. 3.—Victory for opponents of the Ku Klux Klan, combining strength with the farmer-union labor element, was indicated with more than two-thirds of the estimated total democratic vote cast in Tuesday's primary election. Mayor E. C. Weaver of Oklahoma City, virtual assurance of a big plurality for the democratic nomination for governor.

BUCKHORN MINE IS SCENE BIG DEVELOPMENT

Hoist Has Been Installed and Everything About Premises in Excellent Order

There is a hum of activity at the Buckhorn property in the Stone Cabin district, and an active campaign of development is being carried forward under the direction of E. P. Cullinan, who recently became heavily interested with the former leasers. The hoist that was purchased and started for the property has been delivered after a vexatious delay of several days, and everything is now in working order.

Development for the present is being centered on the 160 level of the shaft workings where a fine body of commercial grade ore is exposed, with small streaks being in evidence that carry values running up into the hundreds of ounces in silver a ton. A shipment will be prepared immediately and the value of the product will be in the neighborhood of \$200 per ton.

E. P. Cullinan, who is sponsoring this property through development that is now going forward, is confident that he has in the making one of the substantial producers of Nye country. Property at Stone Cabin is growing in popularity since his advent into that section and ground has been pretty well staked by miners and prospectors.

The Stone Cabin group was owned by John Nay, who lowered the shaft to the 160-foot point, and about a year ago he optioned the property to Carl Monahan. E. Marty and others for a reported consideration of \$18,000. These leasees proceeded to exploit the property from the lower workings by running drifts and crosscuts and they have at last proved definitely that the holdings possess ore in commercial quantities.

FUNERAL MISS MONEY TO OCCUR FRIDAY MORNING

Funeral services over the remains of the late Miss Vivian Money will take place tomorrow morning at 10 o'clock from St. Patrick's church. The remains will be escorted from the family home on Eureka street at 9-45. Interment will take place in the local cemetery.

NATIONAL ARMY MAKING GOOD BIG HEADWAY

Cashel is Captured by National Army, According to Word Sent from Thurles

CLOMEL WILL BE TAKEN SOON

Way Is Paved to Take Stronghold of Irregulars Where DeValera Holds Out

DUBLIN, Aug. 3.—Further progress for the Irish national army in its drive against the irregulars of the south, was reported today in a message from Thurles which says Cashel has been captured by the nationalists. The fall of Tipperary enabled the free state forces to advance on Cashel, thus paving the way to a further advance on Clomel, the irregulars' stronghold where DeValera is making his headquarters.

DULUTH YOUTH IS SCULLER OF HIGHEST RANK

Achieved Coveted Position by Virtue of Particular Style He Has Adopted

DULUTH, Minn., Aug. 3.—Walter Hoover, the Duluth sculling novice, whose phenomenal rise in the pinnacle of boatmanship has attracted international attention, achieved his coveted position by virtue of a particular style of rowing which appears to his title may have considerable difficulty in mastering.

Boating experts are agreed that the marvelous speed of the new world's champion as displayed in the English Henley regatta, is due to his peculiar stroke, a short, swift movement, which in actual test during the Thames competition, produced as high as 58 complete strokes a minute. Nothing in the annals of aquatic sport reveal that any other fellow of the sculls was capable of such execution, and admittedly, there were none at the English water sweepstakes who were even closely matched with the Duluth lad in point of technique.

Hoover's mastery style is self originated. During his first six years connection with the Duluth Boat club, Hoover was uncertain as to his particular ability with the oars and he was doubtful in what division his efforts would eventually place him, but during that time he followed closely his own set rules for physical training.

JUMPS FROM AUTO, INSTANTLY KILLED

FRESNO, Calif., Aug. 3.—Becoming hysterical when she detected a fire on the running board of her automobile, Miss Nancy Frantpech, 40, hurled herself from the speeding machine and was almost instantly killed. A pot of boiling coffee, tied to the running board, set fire to a piece of paper, according to a brother and sister-in-law who were riding in the machine.

CONGRESSMAN FORDNEY SAYS SOLONS GOSSIP

TACOMA, Wash., Aug. 3.—The senate of the United States was characterized by Congressman Fordney of Michigan, chairman of the house ways and means committee, as a "body of aged men who sit and gossip" in the course of a talk before 300 lumbermen of the northwest here last night.

CHICO MAN IS NAMED TO FARM LOAN BOARD

WASHINGTON, D. C., Aug. 3.—John H. Guill, Jr., of Chico, was today nominated by President Harding as the democratic member of the federal farm loan board. Guill succeeds W. H. Joyce of California who resigned. He is described as a practical farmer and a member of a number of agricultural associations, a former member of the legislature and at present vice president of the Farm Loan bank at Berkeley.

SHOPMEN DEMANDING RIGHTS SAFEGUARDED

CHICAGO, Ill., Aug. 3.—Ten thousand shopmen on the Santa Fe who have formed an association of new employees, today telegraphed Chairman Hooper of the labor board demanding their rights be safeguarded in any settlement of the shopmen's strike.

BIG OREBODY IS EXPOSED AT KLONDYKE

Knox Property Ready to Resume Shipments from Full Face Fair Grade Material

The Knox property in the Klondyke district is making an unusually good showing and regular shipments are promised for the future. At a depth of 150 feet a full face of ore has been uncovered and tests show values averaging \$24 per ton. The vein was lost a few months ago but systematic prosecution of work has again disclosed the vein and it is evident that an orebody of greater permanency than heretofore found existing.

Shipments are to be started for the Tonopah Belmont Development company's mill, and a heavy tonnage, with a good earnings, seems to be certain for the future. The Klondyke section is showing a great amount of activity at the present time and a number of owners of property, as well as leasers, are actively engaged in prosecuting well directed campaigns of exploration.

TREASURE HILL PROPERTY WILL BE DEVELOPED

It is expected that inside of the next couple of weeks an active campaign of development will be inaugurated at the property of the Treasure Hills-Nevada Mines company at Silverton. Joe Topkoni, who spent a couple of days here this week, will return from that camp Sunday at which time it is believed the financing touches will be applied to the papers that means the thorough financing of the company.

Plans include the construction of a modern milling plant, and the installation of a complete mine equipment which will result in the 100-foot shaft being lowered to good depth. The showing on the property is considered unusually good and large veins of ore have been exposed both in the shaft workings as well as in open cuts that have been driven in many places.

CAR OF LIME CATCHES FIRE AS RESULT OF RAIN

A car of lime that caught fire while being brought to Tonopah, was in the fire department making a hurried run to the T. & G. depot. The car was cut loose and brought onto the side track and before the blaze to the car could be extinguished it was badly damaged. Chemicals were brought into use to save the car from destruction.

SEPARATION OF RHINELAND NOW PLAN OF FRANCE

Germany to Be Deprived of That Section as Penalties Presented to Poincare

PARLIAMENT IS AGREEABLE

Rhineland Will Be Given Its Own as Separate Financial Regime

PARIS, Aug. 3.—Separation of the Rhineland from Germany with its own parliament and government, and a separate financial regime supervised by the allies, is part of a scheme of penalties presented to Premier Poincare as representing the opinion of the French parliament, which he is known to have taken under consideration.

GIBRALTAR IS MAKING GREAT ORE RESERVES

Mineral Showing in Three Adits is Reported as Making Most Decided Improvement

A remarkable mineral showing is now taking place at the Gibraltar mine situated 60 miles north of Tonopah, and it is evident that the property is to eventually take its place among the substantial producers of the outlying districts of Nye county.

In driving three adits ore has been uncovered in quantity and splendid values are contained. A peculiar coincidence lay in the fact that three tunnels were driven previously and the ore was left untouched, is vein having been missed. In one of these tunnels a full face of ore is exposed that shows assay values of 150 and upwards a ton, and as distance is acquired there is a decided advantage taking place both as regards size of the ore vein and values contained.

Harry S. Stimler, moving spirit of the New Gibraltar Mining company, at the seat of operations with a good force of men and development is being rushed in order that the workings may be in good condition when W. J. Loring, San Francisco mining engineer, arrives in Tonopah. The portable compressor was brought into commission Wednesday and much better headway will result henceforth in the exploitation of the ground. Mr. Stimler has caused to be underwritten with New York and Boston brokerage offices nearly 500,000 shares of the stock in the newly organized company, and funds will be available to insure the carrying on of all proposed plans to a successful termination.

CHINESE FIGHTERS STUDYING BIBLE

NEW YORK, Aug. 3.—Wars and politics around Peking do not interfere with the sale of the scriptures. The American Bible society has announced that it recently sent from its headquarters in Shanghai 187,000 bibles to the subagency at Peking. This was the largest single shipment ever sent out in the history of the society's work in China.

A year ago a record breaking consignment of 588 packages was sent by mail through the efficient Chinese postoffice to Szechuen. Although part of this order fell into the hands of robbers along the Yangtze river, the books ultimately all were delivered.

TELEPHONE CEASE TO CLICK MINUTE

NEW YORK, Aug. 3.—Every telephone instrument in the United States and Canada will be silent one minute tomorrow while Alexander Graham Bell, inventor of the telephone, is being buried. It was announced today by the American Telephone and Telegraph company. The exact time is to be determined later this week.

DETECTIVES GUARD A. BRUCE BIELASKI

MEXICO CITY, Aug. 3.—Twelve detectives are stationed about the United States embassy to guard the movements of A. Bruce Bielaski, who with his wife, have been guests of George T. Rummel, American chargé d'affaires, over a week. It is learned the hospitality of the embassy was offered to relieve Bielaski of embarrassing police surveillance.

PUBLISHER IN LEAD CONTEST STATE KANSAS

Republican Editor Defeats Former Governor Stubbs for Chief Executive

TOPEKA, Aug. 3.—W. V. Morgan of Hutchinson, a publisher, is leading ex-Governor Stubbs of Lawrence for the republican nomination for governor on the returns from over three-fourths of the state. Morgan favored the industrial court law while Stubbs believed the industrial court should be made an adjunct of the state supreme court.

MIDWAY MAKES GOOD SHOWING LOWER LEVELS

Prospecting of Vein Cut Near the Shaft is Proving Very Pleasing to Company

There has been little change to report at the Tonopah Midway mine, and the showing on the 1200 level where exploratory work is going forward is showing some improvement. W. J. Douglass, the superintendent, is still prospecting the vein picked up 150 feet from the shaft and ore that is somewhat scattered is being followed, with occasional shipments being made.

Leasers at work through the original shaft are reported as breaking a good tonnage of ore. Shipments are being made to both the Belmont and Desert mills and satisfactory settlement is being realized. In driving the crosscuts from the 1200 level of the new shaft workings a series of veins have been passed that will no doubt proceed to surrender liberally of ore when exploration has been sufficiently advanced.

CHINESE FIGHTERS STUDYING BIBLE

NEW YORK, Aug. 3.—Wars and politics around Peking do not interfere with the sale of the scriptures. The American Bible society has announced that it recently sent from its headquarters in Shanghai 187,000 bibles to the subagency at Peking. This was the largest single shipment ever sent out in the history of the society's work in China.

A year ago a record breaking consignment of 588 packages was sent by mail through the efficient Chinese postoffice to Szechuen. Although part of this order fell into the hands of robbers along the Yangtze river, the books ultimately all were delivered.

COPPER SLUGS USED INSTEAD OF TICKETS

In Butte the street car company is using copper slugs or coins suitably engraved, instead of the customary books containing street car tickets. The idea back of the change is to create a demand for copper. Copper shingles are also coming into quite general use in Michigan.

WOULD CANCEL INTER-ALLIED INDEBTEDNESS

United States Will Take No Notice of Note as Affecting Our Position

LLOYD GEORGE WILL EXPLAIN

To Make Position Clear to the House of Commons During the Afternoon

WASHINGTON, D. C., Aug. 3.—Great Britain's note to her debtor nations of a suggestion of the cancellation of the whole inter-allied indebtedness, will cause no change in the policy of the United States toward foreign loans, it was stated officially today at the treasury. While to a certain extent the British note is regarded as making more difficult an already complicated international financial situation it was not considered as affecting the position of the United States toward debtor nations. As the note was not addressed to the United States Secretary Mellon is said to hold the view that no official comment of its transmission would be taken by this country.

LONDON, Aug. 3.—It is stated the impression which apparently is widespread in America that the British government through the Earl of Balfour's note on the war debts question, indicated a desire that America should cancel the British debt, is entirely wrong and Lloyd George is expected to make the position clear in a speech to the house of commons this afternoon.

STRIKE SITUATION STILL UNCHANGED

NEW YORK, Aug. 3.—Indications continued to multiply that the federal government contemplated no immediate step in the rail strike situation.

GREAT BRITAIN NOT TO CHANGE OBLIGATIONS

LONDON, Aug. 3.—That Great Britain has no intention of suggesting any alteration in her financial obligation to the United States was emphasized in the house by Sir Robert Horne, chancellor of the exchequer in reviewing the British position on German reparations.

TELEGRAPHERS HEAD OPPOSED TO STRIKE

CHICAGO, Aug. 3.—E. J. Manion, president of the Railway Telegraphers union, has sent letters to the heads of the twelve railroad unions not to strike, suggesting a meeting to discuss the growing tendency to involve their men in the shopmen's strike, it was learned here today.
